Founded in 2005, HONG'S BELT is a leading intelligent conveying terminal provider in China. It is committed to the research and development and production of modular belts and modular intelligent conveying equipment. Its products are widely used in food, beverage, corrugated, tires, intelligent warehousing, express logistics, and other industrial automation fields. It has formed a complete industrial chain integrating independent core technologies, core components, leading products and industry conveying system solutions. It has the ability to provide one-stop conveying solutions, providing customers with competitive, safe and reliable products, solutions and services, and continuously creating value for customers.

Devoted to the field of intelligent modular belt for 20 years.

Proudly holds multiple prestigious awards and complete certifications.
