

HONG'S BELT®

Smart Conveyor System Solutions

MPB Solutions For The Fruit And Vegetable Industry

"Our HONGSBELT industry experts in the fruit and vegetable sector are committed to helping you achieve your goals in efficient operations, sustainable development, and food safety. Whether it's from feed-in to secondary packaging, direct food contact to box conveying, or any type of product or application, we work closely with you to determine the best-fit solutions."

Fruit & Vegetable Processing Applications

What fields can HONG'S BELT products be applied to?

Receiving

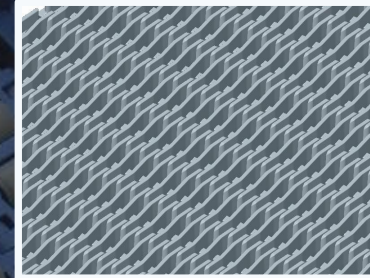

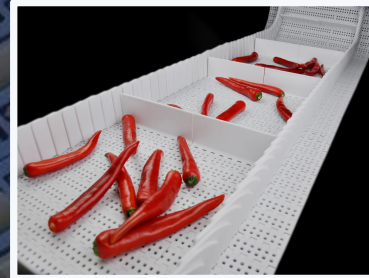

Processing

Freezing

Blanching

Pasteurizing

Packaging &
Case Handling

RECEIVING

UP TO 3x
BELT LIFE VS. PREVIOUS SOLUTIONS

All Brand Compatible Replacement

Our modular belts are designed to withstand the harsh working conditions of the fruit and vegetable industry's feed area. The environment is highly abrasive, causing debris and gravel to dissolve and seep into the mixing liquid, leading to buildup between the belt modules and rods. This can result in severe wear and a shortened lifespan for the belt. To address these challenges, we have developed the HS-1700B & HS-100 Series of modular belts. Our solutions are designed to resist wear and extend the belt's lifespan. The modular design of our belts makes maintenance and individual link replacement easy, reducing downtime and improving process reliability.

Super Wear-Resistant - Super Long Life

HONG'S BELT modular belts have passed FDA certification, ensuring that they meet the highest standards for safety and quality. With safety and versatility in mind, our belts are engineered to minimize the belt breakdown and foreign material contamination. Our modular belts are also extremely durable and wear-resistant, providing a longer lifespan and reducing the need for frequent replacements, which saves you time and money in the long run. The HONG'S BELT Modular Belt has been intensively developed for the fruit and vegetable industry, with a focus on food safety and excellent adaptability.

BLANCHING

+ 260°C
High Temperature Resistance

HONG'S BELT Modular belt for BLANCHING - the ultimate solution for efficient and hygienic blanching and drainage. Our modular belt with open chain design and molded side panels is compatible with any conveyor belt on the market, making cleaning easier and faster. The consistent module thickness ensures maximum strength, reduces the risk of breakage and contamination. Our unique center drive sprocket and drive bar design provides full engagement, even in harsh conditions, preventing rapid belt wear and ensuring long-lasting performance. Choose HONG'S BELT for food safety, hygiene, and efficiency.

HONG'S BELT PASTEURIZER BELTS

HONG'S BELT HS-700D-N Series Raised Rib belts are the ultimate solution for pasteurizing applications. Engineered to endure extreme heat and demanding conditions, these belts boast thicker modules and larger rods that enhance durability, reduce back tension, and significantly extend the belt's lifespan. With the addition of finger transfer plates, pasteurized products, including cans and jars, are transported safely without any risk of tipping or product transfer issues.

PACKAGING AND CASE HANDLING

The back-end packaging technology that HONG'S BELT continues to invest in research and development, combined with the layout of traditional technology production lines, can help fruit and vegetable processing enterprises to realize the automation of all or part of the back-end processes of the production line. The ICONVEY conveyor equipment made of HONG'S BELT modular belt can standardize the packaging production line, help to improve production capacity and reliability, and prevent product damage.

HONG'S BELT technology suitable for fruit and vegetable packaging industry:

Conveyor equipment: a set of patented automated conveying solutions that open up new possibilities for conveyor systems and line layouts. Proven in thousands of installations around the world, our equipment enables efficient, gentle and reliable product transfer in applications where conventional technologies fail.

Modular belt: HONG'S BELT's modular belt can be compatible with most brands on the market, whether you are adding a new conveyor line or equipment maintenance replacement parts, we have any modular belt products you need.
