

HONG'S BELT®
Smart Conveyor System Solutions

MPB Solutions For Meat & Poultry Processing

After 20 years of industrial technology accumulation, HONG'S BELT is not only a module belt supplier. We are true business partners who understand your business goals and operations intimately.

Our innovative molded conveyor revolutionized the poultry processing industry. In the past 20 years, we have continued to increase investment in industry research and development, and are committed to providing innovative technologies. Only to provide better solutions

Replacement

HONG'S BELT modular belts have passed FDA certification, ensuring that they meet the highest standards for safety and quality. With safety and versatility in mind, our belts are engineered to minimize the belt breakdown and foreign material contamination. Our modular belts are also extremely durable and wear-resistant, providing a longer lifespan and reducing the need for frequent replacements, which saves you time and money in the long run. The HONG'S BELT Modular Belt has been intensively developed for the fruit and vegetable industry, with a focus on food safety and excellent adaptability.

Freezing & Cooling

+ 260°C
High Temperature Resistance

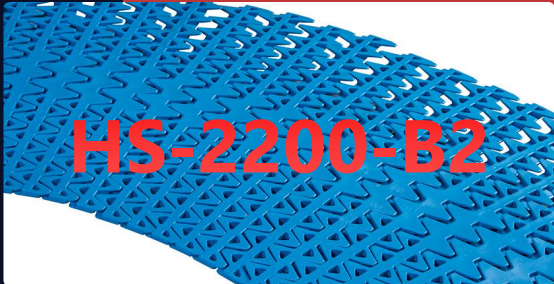

HONG'S BELT & ICONVEY direct drive spiral conveyance system adopts self-developed operating system, which makes the side of the modular belt directly engage with the drum, avoids slippage, and significantly reduces the tension of the conveyor belt. The system helps poultry processing plants reduce maintenance and cleaning costs while maximizing production uptime, improving performance and lowering total cost of ownership

- Multiple entrances on different floors can be customized
- Support for multiple unit stacking
- spiral conveyance is safe and reliable
- Easy maintenance and effectively reduce transportation costs

HS-2200A

Spiral Turning: Yes
Pitch: 19.05mm (3/4 inch)
Width: 400mm

HS-2200-B2

Spiral Turning: Yes
Pitch: 19.05mm (3/4 inch)
Width: 400mm
Open Area: 15%

HONG'S BELT PASTEURIZER BELTS

The back-end packaging technology that HONG'S BELT continues to invest in research and development, combined with the layout of traditional technology production lines, can help fruit and vegetable processing enterprises to realize the automation of all or part of the back-end processes of the production line. The ICONVEY conveyor equipment made of HONG'S BELT modular belt can standardize the packaging production line, help to improve production capacity and reliability, and prevent product damage.

HONG'S BELT technology suitable for fruit and vegetable packaging industry:

Conveyor equipment: a set of patented automated conveying solutions that open up new possibilities for conveyor systems and line layouts. Proven in thousands of installations around the world, our equipment enables efficient, gentle and reliable product transfer in applications where conventional technologies fail.

Modular belt: HONG'S BELT's modular belt can be compatible with most brands on the market, whether you are adding a new conveyor line or equipment maintenance replacement parts, we have any modular belt products you need.
